FOR IMMEDIATE RELEASE: Tuesday, January 6, 2009

Walk-In Flu Clinics Have been discontinued at the Gallatin City-County Health Department

Starting Friday, January 9th, the walk-in flu clinics will be discontinued. Flu vaccinations will continue to be offered by appointment for the remainder of the flu season, through March 2009. If you still need your flu shot, please call the Gallatin City County Health Department for an appointment.

The Advisory Committee on Immunization Practices now recommends that all persons age 6 months and older receive a yearly flu vaccination, since flu strains change from year to year. In addition to flu shots, the health department will also offer pneumonia shots.

A fee will be charged for adult vaccinations, or bring your Medicare card. The cost for flu shots is \$25, Flu Mist \$35, and pneumonia shots \$40. Flu Mist is indicated for ages 2-49 years only.

Children's shots, age 6 months to 18 years that are VFC eligible, will be provided with a \$14 recommended donation. Children's shots, age 6 months to 18 years that are private pay or have insurance that covers immunizations, will be provided for \$25 for the shot and \$35 for Flu Mist.

All clinics will be offered at the Human Services building located at 215 W. Mendenhall, Room #117, in Bozeman. Please call 582-3100 for your appointment.
